

Derek McGuire • Creative Designer

Profile:

Deadline oriented, capable of managing myself and others in a variety of projects. I have experience in 3D industrial design, 3D visual effects and compositing, motion graphics, and graphic design.

Work Experience

2011 – PRESENT

3D Motion Graphics Specialist

Lead animator and visual designer: daily responsibilities include building 3D models in CAD or animation software, texturing models and lighting scenes, setting up and rigging models for animation, keyframe animation, rendering frames, and cleaning everything up in a video compositor. Mechanical Designer: daily activities include creating parts and assemblies for production in real world applications. Recently I have been the lead designer in charge of a team of six working on a large semi-trailer mounted carnival ride.

2007 – 2011

Freelance Videographer/Editor/Visual Effects Producer

I was in charge of the concept, production, and editing of short videos and commercials for clients such as churches, non-profits, and bands. I also work closely with directors and cinematographers to produce visual effects for independent films.

2006 – 2007

Video Producer and Editor for Second Baptist

I was in charge of creating and producing promotional videos for all events and new programs that ranged from preschool to senior citizen. I also went with them to a camp and produced and edited one to two videos each day. I traveled with them to Mexico to create and produce a documentary about an orphanage being built and how it affected the town.
